Jack and Jasons Pancakes and Waffles has a great line of Pancake and Waffle Mixes like Double Chocolate, Blueberry, and Banana & Walnut. If you're looking for a great treat, you must try these.

The mixes themselves are vegan and can also be prepared vegan using egg substitute, oil and almond/soy milk. It's a gourmet pancake and waffle mix that incorporates real fruit and the finest in all-natural, organic ingredients, such as whole wheat flour and hearty-healthy oatmeal.

Co-owners Jack Harper and Jason Jervis started the San Francisco company to create the absolute best product available as well as promote healthy eating and buying local.

Supporting local manufacturing and farming was really important to them when they decided where to launch. They are

currently available online and in about a dozen specialty grocery stores in the city and they will be working to expand to the North, South and East Bay very soon.
